Our surroundings affect energetic, physical and mental balance, which is why at Aguas de Ibiza all the architectural elements and all the furniture are arranged seeking harmony in the space. The seashell on the ceiling is a characteristic feature of our rooms. According to Feng Shui, a seashell above the bed eliminates bad energy.

LOCAL AND HEALTHY PRODUCTS

Oligo, with an impeccable Mediterranean style, offers a help-yourself breakfast buffet. The restaurant is located on the ground floor of the hotel in an airy space filled with natural light plus a large terrace, in which to enjoy a wonderful bio and healthy breakfast. Apart from our buffet you can enjoy a wide variety of dishes a la carte or taste some of the homemade products of our pastry corner.

OUR GASTRONOMY

Alabastro

AN UPMARKET IBIZA RESTAURANT
OPEN ALL DAY

Alabastro, in the hotel lobby, offers a varied menu to enjoy outdoor by the pool or indoors, with healthy dishes made with ingredients from the island including snacks, carpaccios, salads or fresh fish.

OUR GASTRONOMY

Maymanta Pisco Bar

THE BEST VIEWS

Our cocktail bar is located on the hotel's rooftop and open daily from 10.30 am to 02 am, with a design that merges styles from innovative features such as pergolas boat rope to more local items such as Huguet ceramics floor.

Our suggestion to end the day is to taste one of our delicious cocktails and piscos while enjoying the sea breeze. An extensive menu that leaves no one indifferent for piscos as special as the La Linda or the Santa Sarita.

In addition, we have a wine menu chosen by our sommelier, with the best references on the island.

OUR GASTRONOMY

Maymanta Restaurant

FROM THE MEDITERRANEAN TO PERU

Located on the hotel's rooftop will be also Maymanta, the new restaurant with peruvian DNA.

Promising Chef Omar Malpartida arrives in Ibiza with his new restaurant that brings us a traveling kitchen in a space where you will find a mixed cuisine, with dishes such as the causa, the ceviche, oysters or the Amazonian patacón.

A cuisine based on its origins and unusual products of Peru.
