ESSENCE OF ETHIOPIA DMC The amazing country that no longer wants to be kept secret Ethiopia was once one of the least welcoming places in the world. With its proud peoples, an ancient history – arguably being the birthplace of humanity following the discovery of the 3.2 million-year-old skeleton dubbed “Lucy” – and a fiercely independent. Abyssinian royalty, including the legendary Queen of Sheba, it was the only country in Africa never to be colonized. But today Ethiopia’s doors to the outside world are open like never before. “We want to show everyone what an amazing country we have”

“We don’t want to keep it a secret anymore.”
