

Château d'Estoublon

SUMMER 2020

A lavish estate

In the heart of Provence, on the southern slopes of the Alpilles mountain range, sits the Domaine d'Estoublon. Like the rest of the region, it is imbued with Roman heritage – and since 1489, the Château d'Estoublon has been privileged to be part of this wonderful environment, keeping up the tradition of the area by making olive oils and exceptional wines. Filled with hidden charm, the chateau is located in parklands of over 200 hectares.

La vie de Château

With over 16,000 square-feet to enjoy, it is no surprise the Château has 10 bedrooms with adjoining sitting rooms, all filled with authentic and refined design touches.

Revelling in the atmosphere of a stately home, guests will find every necessary comfort for a stay with friends or family.

A discreet service

At Château d'Estoublon, the key word is tailor-made.

Service is overseen by the chief butler and his team. Discretion is essential and staff will do all they can to ensure every need is met. At Estoublon, there is no need for predefined times or places – the rhythm changes daily, according to the requests of the guests. Their desires shape the days.

An exhaustive offer

The Chateau offers a myriad of services and activities included in the rental.

Breakfast, lunch and dinner are served every day, either on the terrace or in the vineyards. The chef takes care of guests and will introduce them to local products and the estate's oils and wines. Numerous activities are also available. From horse-riding on the estate to a lazy day by the pool, the butler will help guests to organise their time and fulfil their wishes.
