## WELCOME HOME

Across the garden, few steps away from La Bastide de Gordes' main building, a very unique gem is hiding under the shade of the olive trees and the laurels: La Maison de Constance.

A private villa spread over 350m<sup>2</sup> with an amazing view on the Luberon valley.

This piece of heaven is beyond sophistication and glamour, it gives a strong home feeling that one would never want to leave.

The cicadas are singing under the sun of Provence and the guests of La Maison de Constance are definitely feeling home away from home.

## INDEPENDENT YET EXHAUSTIVE

Built to create an immersion into the Provencal lifestyle, La Maison de Constance is completely independent from the nearby hotel life.

Coming with a fully equipped kitchen, a laundry room and lounge rooms, guests will enjoy a total privacy.

Opened on the garden with a beautiful terrace, the villa facilities include a private swimming pool and sunbeds.

Residents will find secret doors to exit directly into the village's streets.

To make the experience complete, the villa offers access to all hotel services.
