

A fantastical floating island landscape. In the center, a large, rugged rock island floats in the sky, topped with a red stone tower that has a flag on top. The island is covered in greenery and has small waterfalls cascading down its sides. Below the island, a lush green valley is visible, with a red hot air balloon floating in the air. Other smaller floating islands are scattered in the background. The sky is blue with some clouds. The overall scene is surreal and dreamlike.

# Venues

From traditional to informal and contemporary, Vilnius has an array of unique venues to choose from. Though the city is known for its exceptional collection of historical settings, more and more contemporary options are popping-up as the startup and tech scenes continue to expand. Co-working spaces, startup hubs and other unconventional settings can be adapted to serve as meeting and event venues. Regardless of what they choose, event planners can expect well-equipped venues managed by professional teams ready to go the extra mile to bring their ideas to life.
