# CATALUNYA

Business destination

# CATALUNYA

## Business destination

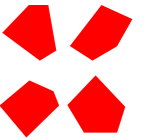

Catalonia is innovation, dynamism and business. It is also tradition, culture and experience. It is a pioneer country in industry, commerce and services. And also a Mediterranean environment, welcoming, diverse, and open to the world.

---

A business destination is not ideal just for one or the other values. It is the combination of different characteristics given, on the one hand, by the territory, and, on the other hand, by constant effort and international recognition. The Catalan region is outlined by the Mediterranean, a great geographic diversity, and Barcelona as capital, a unique and worldwide-reference city. Constant work has done the rest, turning the tradition into experience, and expertise into real business opportunities.

# Catalunya, business destination

Catalonia offers an excellent network of conference, convention and exhibition centres with a wide range of unique indoor and outdoor spaces adapted and equipped to accommodate all types of customized meetings and events. Its strategic position favours its open character and weather becomes a great ally, with over 300 days of sunshine a year and an exceptional combination of sea and mountain that makes all kinds of activities possible.

Catalonia is the main tourist destination of Spain (and Spain one of the three main tourist destinations in the world) offering very different attractions in the same surroundings: cities, nature, culture, shopping, relaxation and wellbeing, luxury, sea, mountain sports, golf ... and gastronomy, one of the great Catalan values, both for the rich cuisine available for everyone and for the influential and renowned chefs from the country.

An active economy, a great organizational capacity that has been shown in international events, or the IBTM World that for 13 consecutive years has turned Barcelona into the world capital of business tourism, make Catalonia a mirror to the world global MICE. A mirror that reflects the excellence that Catalonia offers for professional meetings and events, and which also includes the latest requirements and trends. Because improving every day is not only a goal, it is also our secret to always offering a leading, desired, and efficient business destination.

What does

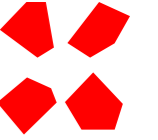

**CATALUNYA**

taste like?

# What does Catalonia taste like?

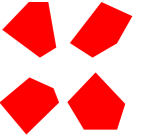

---

“Surely like the landscape.” This is the answer given by the [Roca Brothers](#), who ignite the flames of one of the most famous Catalan stoves around the world, the ones in Celler de Can Roca.

# What does Catalonia taste like?

Catalonia is a mixture of ingredients between sea and mountain, a recipe combining poetic and delicate views with the most abrupt force in the nature, a merge of the most cosmopolitan trends with ancient traditions. And from all these places come up unique culinary proposals, able to stimulate all the senses.

Catalonia is the 2016 European Region of Gastronomy, a recognition not only of the eatery offer, but also to the food and tourism industries. The Catalan culinary model is considered around the world for the innovation the hundreds of local chefs have put on the table, and the raw material our land offers.

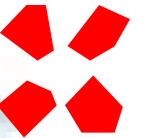

A country marked by Mediterranean, by vineyards and the flavours of the Py enees. By inland territories, by the tradition in each and every one of its corners. Sitting at the table in Catalonia is a unique experience: whether in one of the hundreds of restaurants awarded with Michelin stars or in a small inn at the end of a small road. Welcome to one of the most interesting countries gastronomically speaking. Welcome to Catalonia. And enjoy your meal!

**Ruscalleda, Adrià Roca... these are typical surnames typical of Catalan cuisine, in whose list we should add the ones in charge of our local products. The pantry, as we know it: varied, delicious and of high quality. Cheeses, meats, wines, champagne, fish, vegetables... Products vary by season; seasonal products that fill with colours and smells the markets in towns and villages; delights that give the seal of quality to Catalan cuisine.**

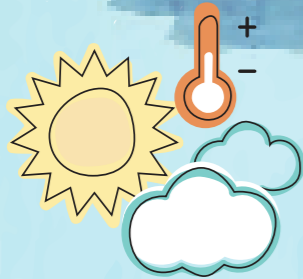

# WHY CATALUNYA?

## BON DIA!

Good Day! The "official" morning greeting in Catalonia is more than a statement of intent. The climate is our ally, the average temperature is 17°C and enjoys more than 300 sunny days a year. Need a good day for your event? You will have it!

## VERY, VERY CLOSE

Catalonia has it all. And everything is within reach. You can go from big cities to mountain surroundings in just over an hour, with excellent communications and suitable infrastructure for any type of event.

## TOUCHED BY THE MEDITERRANEAN

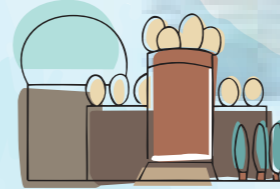

The sea is always present. It is part of the disposition of its people, open and welcoming, and expands the range of possibilities to enjoy Catalonia and its unique experiences.

## SEA AND MOUNTAIN

Contrast is richness. And the natural richness is priceless. It creates quality of life, offers a unique landscape and motivates the pleasure to enjoy unique surroundings and singular spaces.

## GENIUSES' TERRITORY

Antoni Gaudí, Salvador Dalí, Joan Miró, Pau Casals... and many other geniuses have elevated Catalonia, giving their eternal art as a present. A singular legacy that is also palpable on singular events.

## PRODUCT IS THE STAR

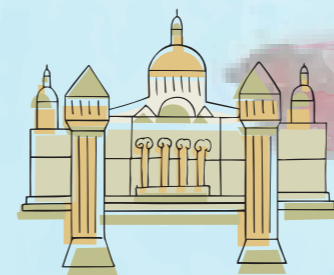

The Mediterranean diet is a lifestyle. The earth enriches the cuisine, and the Catalan product becomes an added value to all the events hosted in Catalonia. A gastronomy to savour: healthy and recognized around the world with great Michelin-starred chefs.

## BARCELONA

Cosmopolitan, desired and internationally recognized. The capital of Catalonia is history, culture, modernity, and an international reference for hosting events and meetings. A unique city in the world.

## EXPERIENCE IS A DEGREE

Major international events, conferences and multitudinous festivals recognized worldwide have been held in Catalonia for years. A long trajectory of trust and "know-how".

## LET'S GET TO WORK

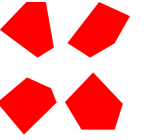

The Catalan people is of a job well done disposition. Organization, efficiency, and responsibility are constant in the day-to-day. Want to surround yourself with professionals for your event? Let's talk about it!

# CATALUNYA

Environment and territories

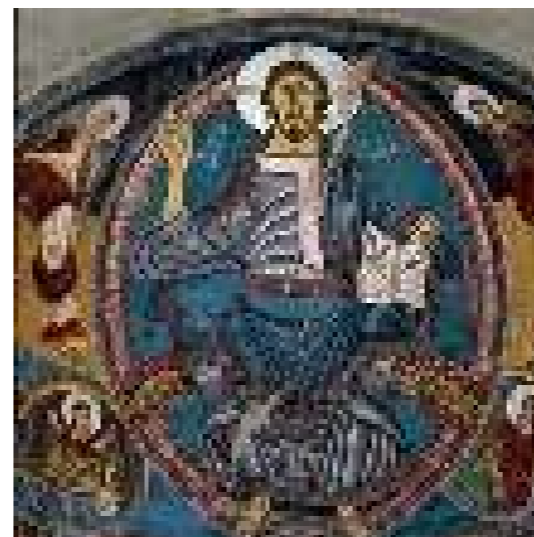

# A small country full of great things

Think about a site in which you can choose, in less than two hours distance, if you want your event to have the Mediterranean sun caressing your guests as its protagonist or the purest, wildest mountain. Or history carved in millenary stones. Or the most spectacular views.

Water it with the best wines, with an innovative cuisine with ancestral reminiscences, and the possibility of walking through cities with a thrilling past and a vibrant present. Imagine kilometres of beaches and coves, some sandy and delicate, others with small stones, witnesses of hours of sun and salt. Land of castellers, fishe men, magic mountains, universal artists, restless culture, business, culture.

Give it a capital, named Barcelona, and choose among the excellent network of conference centres, exhibition centres and a huge range of indoor and outdoor spaces, adapted and equipped to accommodate all types of meetings and events. It is CATALUNYA. A small country full of great things.

Welcome. Come in.

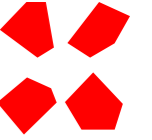

# Catalunya is...

## See and Mountain

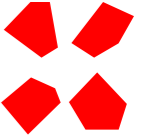

---

This is a key expression in Catalonia. It is not used just to understand that if you come to Catalonia you have everything at your fingertips, but it is also used in the urban environment to locate addresses. If you are meeting someone on the street in Barcelona, do not be surprised if your partner asks you “sea side or mountain side?” to understand whether if you’re on the high part street, closer to the Tibidabo, or the down part, closer to the beach.

If you’re on the beach, the mountain will still be present, offering a contrast of green and blue colours. If you are in the mountains, you can still be in touch with the beach through the views, and the salty flavours that can wind can carry to you. The sea and the mountain are two great friends in Catalonia.

# Catalunya is...

## Rural and urban environments

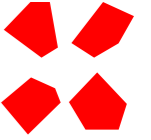

---

Small charming villages with squares and that bear witness to thousands of years of rural life. Cities of different dimensions that receive inspiration from their visitors and offer creativity, innovation and openness based on centuries of urban life. This is Catalonia. A contrast between the rural environment and urban streets, a few kilometres away from each other. It's Barcelona, one of the most desirable cities worldwide, leader in culture, innovation, design; a smart city that strives to get an outward good impression, and at the same time maintains a strong social fabric that keeps the native traditions. It also Girona, Lleida, Tarragona; the other three provincial capitals leading cutting-edge interesting social and cultural movements, but still looking to their past, building castles, growing fruit trees, taking care of vines to produce the best wines, or giving form and colour to ceramics., Catalonia is all this and much more, but above all, plurality and diversity of territories.

# Catalunya is... Mediterranean

---

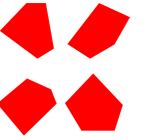

The blue colour, the style, the diet, the cuisine... The sea that waters the Catalan coast has become an adjective to describe many aspects of the lives of those who live here. The Mediterranean, the cradle of western civilization from old ages, is one of the places with the highest concentration of biodiversity in the world, and although it is clearly defined by its colour, fauna, temperature... in Catalonia it shows one of its most multifaceted sides, transforming into tiny coves decorated with delightful fishing boats, into kilometres of sandy beaches, into wild places surrounded by rice fields welcoming a river, or into urban beaches able to satisfy the hunger for sun of any single visitor.

The Mediterranean also defines a disposition, a way of doing things. One of the major themes in the adventure of living in Catalonia.

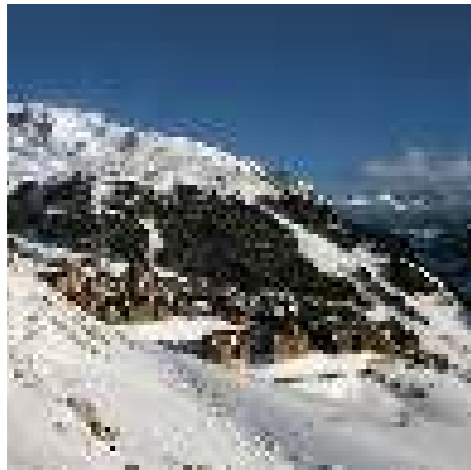

# Catalunya is... Pyrenees

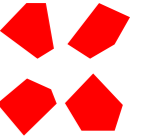

Breath-taking landscapes, 3000 meter high peaks, many kilometres of trails through virgin territories and valuable artistic and cultural heritage. So are the Pyrenees of Catalonia, a high mountain region ideal for practicing adventure sports and oxygenating your body and mind with fresh air, the greenest green, and the freshest freshness.

The Pyrenees are also churches virtually intact, valuable artistic and cultural heritage, a national park, Aigüestortes, covered in firs and ancient forests and a unique flora and fauna. In the words of [www.visitpirineus.com](http://www.visitpirineus.com), "a place where the road counts as much as the destination, where you can spend the day enjoying nature at its best and end the evening relaxing in front of a hearth." A real "inland paradise."

# Gran Hotel Monterrey

Centric hotel in Girona, it has been part of the artistic and architectural landscape of the city since the last century. The inauguration of the Hotel Gran Ultonia in 2009 renewed the hotel project, offering a wide range of possibilities for meetings and events with various rooms and spaces with capacity for up to 300 people. Its two terraces have panoramic views of the Girona cathedral, one of the symbols of the city, and to the Devesa Park.
