— EVENT PLANNING —

WHERE EVERYTHING BEGINS.

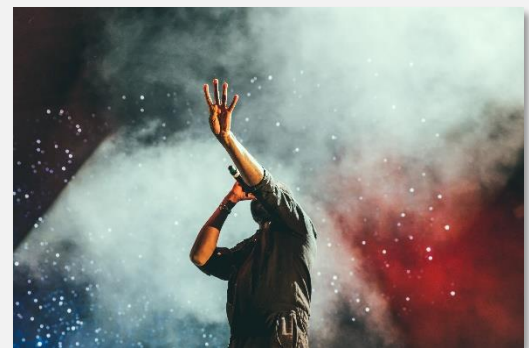

Our principles are where everything began. Origin Event Planning is more about who we are than what we do. It's based by our character, credibility, community, and willingness to change and adapt.

We are an ideology-driven business. Fearlessly collaborating, producing better and tangible results for our clients. Valuing the inherent goodness of people and providing them with radical opportunities to thrive is smart business.

A well managed plan makes all the difference. Properly managing a conference or your presence at an event can be an overwhelming task. Effective planning and strategy are required months before, while logistics and details come into play just before and after. Let Origin's experience and talent work for you and trust that things will go smoothly and be a success. Regardless of how big or small, we will be there for you every step of the way.

Having a diverse range of clients around the world allows us to provide your company with unique and solid solutions. We want your presence to stand out from the crowd. We are committed to delivering on your dreams.
