

## INSPIRING INCENTIVE AND BESPOKE SERVICES

It's incredible to see the energy that is unleashed when a group is placed in a new environment and confronted with tasks that call for new talents. Incentive trips are a great way to celebrate good results, to thank staff for a job well done or simply to boost the solidarity and know-how of your staff.

Iceland ticks all the right boxes when it comes down to imaginative incentive. The hidden gems, the bespoke programs created by Sena, along with small surprises, while ease, comfort and security are kept in mind. We fully respect the needs of our clients, partners and colleagues and place a great deal of emphasis on good collaboration between all the parties concerned.
