

A STRONG CSR POLICY TO SUPPORT YOUR EVENT

Since 2007, Monte-Carlo Société des Bains de Mer has been making every effort to promote increasingly responsible and sustainable tourism as part of its commitment to a proactive environmental and societal approach. Our teams and those of our local partners can help you reduce your carbon impact at each stage of your event, be it related to transport, accommodation, gastronomy, activities, or calculation and compensation tools.

ENVIRONMENTAL POLICY

Our commitment is based in particular on the following areas:

- **Decarbonisation**, with the aim of reducing our direct greenhouse gas emissions by 55% by 2030 through sustainable purchasing, anti-waste measures, energy efficiency and the development of renewable energies, electric mobility, and digital impact control.

- **Promoting and preserving our natural heritage** through the preservation of our drinking water resources, the elimination of any replaceable hazardous products, controlled end-of-life product management, waste recovery, and support for local biodiversity projects.

- **Sustainable Development Management**, which aims to structure our approach and align our commitments with those of the Principality; the continuation of our CSR certifications and the deployment of training on sustainable development issues for the Group's staff.

- Major economic player in Monaco, committed to supporting employment and regional development.

- Strong involvement in local cultural, artistic and sporting life through the organisation of symposia, exhibitions and shows throughout the year, thus contributing to the dynamic events characterising Monaco.
